

about us

We are John and Megan - a married couple with a passion for interior design, home décor, renovations, and DIY projects! We started Arched Manor in 2020 when we purchased an aging manor in Virginia that needed serious help. Project by project, we have been putting our unique design stamp on our house, nicknamed **The Arched Manor**, and from that passion, our blog has transformed into a business! We enjoy sharing our love for home design, projects, and products with our friends and followers and hope you will join us in building our brand!
